### GOES AFTER H. G. WILSON.

Detective Will Bring Passer of Alleged Worthless Checks Back Here.

Armed with a copy of an indictment charging Herbert G. Wilson with false pretenses, Detective H. W. Boyle last night left for Toronto, where Wilson was arrested yesterday morning.

Wilson, who is thirty-two years old, is charged with having passed a number of worthless checks in this city. The checks were for small amounts and were passed on merchants. It is charged, the police claiming that the

alleged swindler obtained between \$300 and \$400.

August 12 the young man left this city. He was traced from place to place and finally located in Toronto, where he was arrested. The police say he is wanted in many cities to answer charges of having passed worthless checks.

Strike Conciliators Named.

Acting Secretary of the Department of Labor has appointed C. Smith of Trenton, N. J., and James A. Smith of Reno, Pa., as conciliators in the strike at the American Graphophone Company, Bridgeport, Conn.

## WATER POWER PLAN AS YET UNDECIDED

Commissioners Dubious as to Recommendations, Considering Mr. Garrison's Words.

### HEARTILY FAVOR SCHEME TO HARNESS GREAT FALLS

Question Raised Relative to Form in Which Congress Should Be Asked for Appropriation.

Whether or not the District will endeavor to initiate the project of harnessing the water power at Great Falls, in view of Secretary of War Garrison's statement that he does not feel justified in asking Congress for an appropriation for the improvement at this time, probably will not be decided by the Commissioners until the District's estimates for next year have been completed.

If the District is to undertake the matter it must do so either by inserting an item in the estimates or recommending the project in a separate bill. Whether the former can be done will depend upon the amount of money in sight after the Commissioners have estimated for the current and urgent needs of the municipality. The proposition of initiating the matter in a separate bill has not been discussed.

The Commissioners made plain to the

special subcommittee of the Chamber of Commerce, which called upon them yesterday to urge the Great Falls project, that they heartily are in favor of it, and if any feasible method of recommending it to Congress is presented the recommendation undoubtedly will be made during the winter.

Should the municipality shoulder the responsibility of asking Congress to appropriate for the improvement it probably would recommend the Langfitt plan, worked out by Col. Langfitt and other engineers of the United States Army, which provides for dividing the cost between the local and federal governments. For this reason it is not believed that the District would have to bear a larger share of the cost by asking for the improvement than if the request were made jointly by the District and the War Department.

### Study Situation Carefully.

There are so many points to be considered that the Commissioners will take full time in going over the situation. For the purposes of the general budget of the District the Commissioners have about \$16,000,000 in sight (one-half of which represents prospective District revenues, and the other half an equal amount to be appropriated by Congress under the half-and-half plan). The first consideration will be the current and actual needs of the city, and if the total amount required for these purposes is less than \$16,000,000 it may be possible to provide for the Great Falls improvement in the estimates.

Estimates Progress Rapidly.

The Commissioners are making rapid progress on the preparation of the estimates and should have them completed well in advance of October 15, by which time they must be transmitted to the Secretary of the Treasury. It is pretty definitely settled that items will be included for the preparation of plans for two new bridges to replace the Aqueduct structure across the Potomac at Georgetown and the Calvert street bridge spanning Rock creek.

Two big improvements, preliminary work upon which already has been done, that will be in line for liberal appropriations are the reformatory adjoining the workhouse at Ocean View, Va., and the municipal hospital, at 14th and Upshur streets.

The Commissioners are giving careful study to street improvement and social service needs and will, it is expected, ask for liberal appropriations along these lines.

## HIGH COMMISSION DATE FOR BUENOS AIRES MEET

Postpones Consideration of International Laws Relating to Finance and Trade.

South and Central American Governments to Be Notified—Completed Reports Submitted.

Postponement until April 3, 1916, of the first session, at Buenos Aires, of the American international high commission on uniformity of laws relating to trade and finance is recommended in a resolution adopted by the United States section of the commission.

The members of the section, meeting yesterday for the first time since their appointment, decided that the date originally proposed, November 1, would not give sufficient time for the preparation of data on existing obstacles to better trade and financial relations between the American republics, with suggestions for their elimination.

### Request Made for Suggestions.

The South and Central American governments will be notified of the proposed postponement through the State Department, with a request that the commission of those countries forward such suggestions as they may have to make with reference to any action which the United States should take in furtherance of closer relations.

Reports already completed and considered. It was determined not to take final action on any of them until the meeting of the section, to be held December 1.

With Paul M. Warburg of the federal reserve board, the commissioners discussed Secretary of the Treasury McAdoo's suggestion that joint agencies of the federal reserve banks be established in Latin America.

### P. O. Representatives Receive Data.

Representatives of the Post Office Department present were given data relating to mail, parcel post and money order service collected by Dr. Leo S. Rowe, secretary general of the commission, during his recent trip to Chile, Peru and Panama.

Members attending the meeting were: Secretary McAdoo, chairman; John Bassett Moore, vice chairman; Dr. Leo S. Rowe, secretary general; John H. Fabyer, secretary general; John H. Fletcher, Samuel Untermyer, J. Brooks Parker, assistant secretary general, and Constantine E. McGuire, assistant to the secretary general.

### Reports Considered.

The reports considered were the following: Uniformity of laws relating to bills of exchange. Constantine E. McGuire; uniformity of laws relating to bills of lading. Charles S. Haight; uniformity of customs regulations. Consular certificates and invoices and port charges. Wilbur J. Carr and Gen. E. H. Crowder; standardization of sanitary regulations on imports. Dr. Rupert Blue; further copyright legislation. Thorvald Solberg; uniformity of regulations for commercial travelers and samples. Elliott H. Goodwin; uniform low rates of postage and money order and parcel post charges. Postmaster General Burleson; extension of means of arbitration of commercial disputes. In H. Fabyer; legislation on war and welding. Ring; conditions imposed in Latin America upon foreign business companies. Paul Fuller; uniformity of laws governing the establishment and regulation of corporations and joint stock companies. Prof. Roscoe Pound.

## J. D. ROCKEFELLER, JR., CONTINUING HIS TOUR

Was Center of Interest at Typical Mining Camp Dance at Cameron, Col.

WALSHEBURG, Col., September 24.—The mining camp of Cameron, near here, was astir early today to bid farewell to John D. Rockefeller, jr., their overnight guest. Mr. Rockefeller planned to proceed northward on his tour of inspection of the properties of the Colorado Fuel and Iron Company.

The little schoolhouse at Cameron last night was the scene of a typical mining camp dance, with the distinguished New Yorker the center of lively interest. After an entertainment by local theatrical talent, staged in honor of their guest, Mr. Rockefeller suggested a dance. The chairs quickly disappeared from the room, and Mr. Rockefeller and others of the easterners in the party danced with the local girls and women of the mining town.

Controlled Warwick Rules Against

Capt. W. H. Pritchett, U. S. M. C.

Capt. William H. Pritchett, U. S. M. C., who chose not to live in a tent at the San Diego exposition, like other officers of the 4th Regiment stationed there, and who took up quarters in an apartment house, will receive no allowance as commutation of quarters.

He was entitled to "quarters in kind" or commutation therefor. But, as a tent was available as provided for other officers, and as he preferred for his own comfort and convenience to live elsewhere, he has no valid claim against the government. So rules the War Department.

### MUST PAY OWN RENT.

Controlled Rules Against Claim of

Capt. Charles W. Newton.

Capt. Charles W. Newton, member of the Arlington memorial amphitheater commission, in his expense account, is not allowed to divide a hotel bill for the day's lodging into two parts, charging half the bill against the day of arrival and the other half against the day of departure, to keep his expenses within the statutory maximum of \$5 a day. He loses 40 cents by a decision of the controller of the War Department.

Capt. Newton arrived the evening of June 23 and retained his lodgings until late in the afternoon of the following day. June 23 he claimed \$1.25 expended for dinner and \$1.15 for supper. June 24 he charged \$1.10 for breakfast, \$1.05 for dinner and \$1.15 for supper. The voucher for room rent he divided into equal parts of \$1.50 each, bringing the substance

## EGGS GO UP IN PRICE AS SUPPLY IS SCARCE

Some Dealers Quoting Best Grade as High as Forty-Five Cents a Dozen.

Benches of Dealers in Fruit and Produce as Attractive as in Midsummer.

Hens have been refusing to do their full duty in furnishing eggs for public consumption for the past month, owing to the "moulting" season of the summer, and the coming of cool weather has added to their troubles and more hens have gone on strike. As a consequence the egg supply is becoming scarcer and there has been an advance of about 5 cents on the dozen in the past week.

Benches of dealers in fruit and produce are as attractive as in midsummer. The fruit and produce markets are well supplied and the benches of the dealers look as attractive as they did in midsummer. A few changes have been noted in prices, which as a general thing remain at the figures of last week. Green peas have practically disappeared, corn and squash show higher prices, while lima beans and okra are lower in price.

Cantaloupes from the nearby farms have disappeared from the market and their place has been taken by the Rocky Ford variety, which are selling at 10 to 20 cents each. The watermelons still on the market are from the farms about Washington and they are selling at from 25 to 40 cents each. Grapes, both from New York and from California, are on sale in increasing quantities and are in good demand. The morning New York grapes sold by the basket at from 15 to 25 cents, while the western grapes are selling at 10 to 15 cents a pound.

Dealers in the markets state that business is increasing, and more people are coming to the markets now than they were buying for several months past.

## EVELYN S. FULLER DIES. RESULT OF APPENDICITIS

Washington Boy Who Was Injured in Class Rush Later Stricken With Fatal Ailment.

Injured in a class rush at Leland Stanford, Jr., University September 2, and developing appendicitis, Evelyn S. Fuller, son of Mr. and Mrs. T. J. D. Fuller of 2317 Ashmead place northwest, died Wednesday night at the home of Representative Hayes, at San Jose, Cal. The young man had been taken to the home of Representative Hayes, a friend of the family, immediately after sustaining his injuries. It was believed at first he had died of those injuries but later it was shown he had had an attack of appendicit
